DRAINER

Automatic draining of canned sardines

The Easy Can Drainer is a pelagic fish processing machine that is designed and built to automatically drain water from filled and pre-cooked cans after the continuous cooker at approximately 300 cans per minute, before cans proceed to the saucer and seamer.

Specifications:

1. All stainless steel (316), bronze and engineering plastics construction.
2. Power supply: 380v for 0.37kW geared motor.
3. Can formats: Models for most cylindrical cans are available. Most popular sizes are Buff = dia. 65 mm x 79 mm, A1 = dia. 65 mm x 101 mm, 1M/Tall = dia. 73 mm x 111 mm, JITNEY = dia. 52 mm x 89 mm / dia. 52 mm x 111 mm. Please enquire about other formats.
4. Machine has an emergency stop switch and must be wired to saucer/seamer.
5. Optional: Change parts for another can format. All formats utilize the same main frame and gearbox.
6. Optional: Safety covers over moving parts with electric interlocks.
7. Optional: Catch tray for recovery of drained liquid.
